

THE GIFT EDITION

CORPORATE GIFTING 2024

MADE IN CHESHIRE

Based in the heart of Cheshire, one mile from the Shropshire border, the location of our distillery is incredible, surrounded by outstanding countryside.

We grow our own herbs and flowers to use in our gins, handpicked from planters right outside our doors. We are a small family business, and took the name 'Three Wrens' as a nod to our local village of Wrenbury.

All our gins are created and crafted at our Distillery or our cocktail bar located on Pepper Street, Nantwich.

Our copper stills, Jill & Valerie, are in action nearly everyday producing our stunning gins and liquors.

Jill is a beauty, equipped with a deep vapour basket where we can infuse fresh herbs and florals, and she can produce around 300 bottles per batch.

Our distillery has achieved 10 international gold medals as well as the prestigious Golden Fork Award from the Guild of fine food in 2021. The golden fork is awarded to the World's Top 12 food and drink producers from 180 countries across the world. Our Bison Grass gin also scooped UK's best flavoured gin at the Great British Food Awards 2021, cementing our place as one of the world's leading flavoured gin producers.

BESPOKE GIN DISTILLING

Give a Gift That No Other Company
Will Have This Year

Fully bespoke end-to-end distilling
service for businesses looking to give a
unique and personal gift

A gift to stand out from the crowd this Christmas with your employees and clients, an exceptional bottle created and designed by yourselves. Guided by our award winning team, together we'll create a flavour combination to reflect your business in a stunning bottle that everyone will keep on display all year round.

THE PROCESS

Step 1: Create your signature flavour

We will set-up a call to discuss and go over your options. You are welcome to visit our distillery, where we stock over 100 interesting and exotic botanicals, with unlimited flavour combinations. After learning your requirements/aspirations, we will distill a sample gin for you to approve.

Step 2: Choose your bottle & design

We can advise on a range of bottles, and the design of the label is usually up to you. We will supply a template for all the legal info needed on the bottle, and we will supply duty stamps.

Step 3: Order your first batch

Our copper pot still 'Valerie' makes small batches of 50 litres – meaning your initial commitment is a low minimum order of just 75 bottles. Our turnaround is quick – we can make and deliver your finished gin within 5 working days.

How much does it cost?

The initial consultancy phrase to create a bespoke recipe including your first trial sample is free of charge.

For a single small batch the net cost per bottle of your finished gin usually comes in around £25+vat per full size 70cl bottle, depending on the ingredients we use and the style of bottle you choose. The price can be substantially discounted for larger orders. We also offer flexible payment options.

Add on: 100 Miniatures at an additional charge

If the gin is for corporate gifting only, you will not require a license, but you must not sell the gin under any circumstances.

CASE STUDIES

Five Puffins, London

Created at Three Wrens Gin for 5 star Michelin chef Alex Dilling served as the house gin for Hotel Cafe Royal, London.

Distiller Nick and Alex worked closely on the recipe together. The gin is distilled with Lemon verbena and bergamot peel and can be served on the rocks, as a cocktail or as a classic Gin & Tonic.

Iscoyd Park, Whitchurch

Iscoyd park country estate wanted to create their own gin using botanicals from the estate gardens. We picked lemon verbena and rose from their estate, and distilled them with classic gin botanicals. We then incorporated their logo into our bottle design to create a truly unique and very special edition.

CORPORATE GIFTING

If a bespoke Gin isn't what you're looking for your staff and clients this year, we offer a full range of gifting options. From tasting boxes and hampers to experience days that they won't forget.
